

**Sample of the
“Welcome to the howsyourhealth.com customization screen”
(After you have set up your personal HowsYourHealth Program)**

1. Your patients will be able to respond to your custom options after entering the passcode when requested.
2. You may also automatically enter the passcode for them if they enter from a howsyourhealth link from your personal website. Use the address:
http://www.howsyourhealth.com/cgi-bin/start.py?Q0x=YOUR_PASSCODE

Please choose which option you would like to modify :

3. Add Up to 10 Subgroups for sorting information (for example Drs. A, B, C in you practice)
4. Modify or add up to 5 questions (three are yes/no; 1 is three response, 1 is 5 response) You can change over time. Make sure you keep track of the data because the response automatically appear in your summary data base and can be censored by date)
 - for those 9-18
 - for those 19-69
 - for those older than 70
5. Add an open-ended question
6. Offer special health/disease management and registry. If you want to keep track of a specific subgroup of patients, you can invite them to participate.
7. Offer email transmission of action form and registry. Needs to be activated if you want your patients to either put information in the Docsite registry or email you their responses.
8. Request Summary Data. A real-time cumulative summary of respondents.
9. Add request for personal identifier. (Not enabled except by special permission)
